

“How To Learn The 12 Major Keys” Instructional Chart

Study each key as you were instructed in the “Visual Characteristics” videos. If you’re receiving this guide and haven’t checked them out [Click here](#).

Learn how to play piano & keyboard and sound like a professional. It’s the fastest and easiest way to learn guaranteed.

Visit learncolorpiano.com

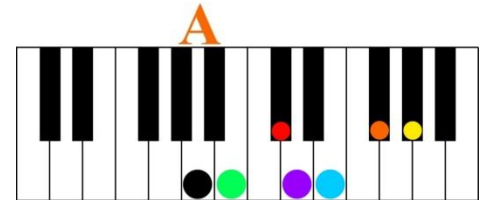

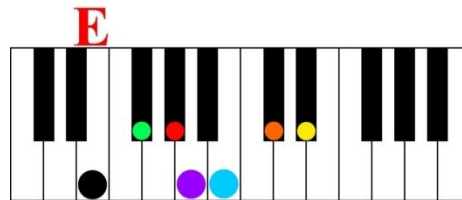

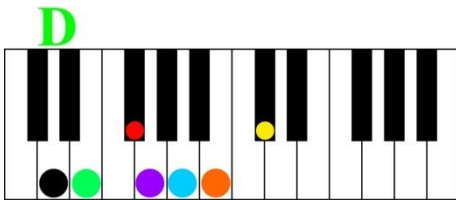

Tip 1

Take one finger and study each key with interest. Count the numerical sequence of each key aloud as you play them.

Tip 2

Play each key slowly while imprinting its appearance in your brain. This will help you to learn the unique shape of each key.

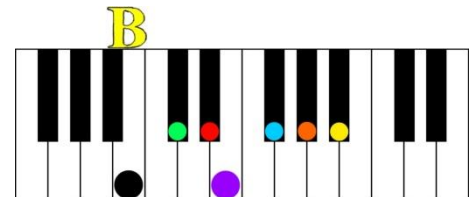

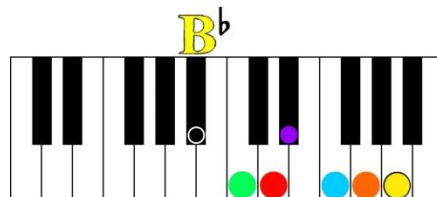

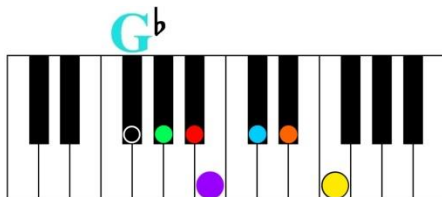

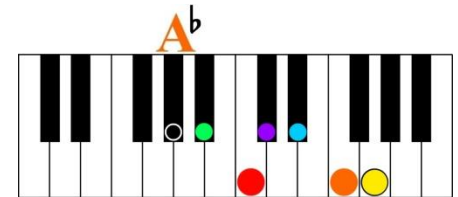

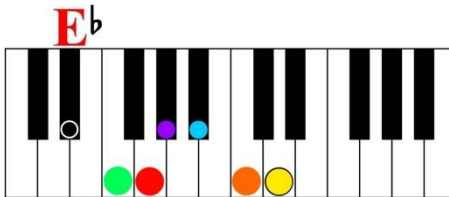

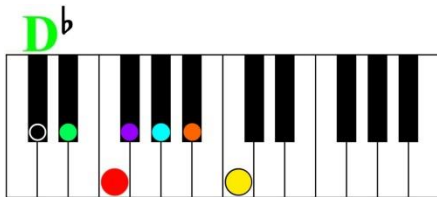

Tip 3

Pay attention to how many black keys are in each key that you study.

Tip 4

After learning all 12 keys, cycle through all of them every day. It takes approximately 5 minutes.

The Color Score Professional Chord Learning System is the fastest and easiest way to learn to play piano & keyboard. Guaranteed. Find out more at learncolorpiano.com “The visual characteristics of “ videos (starting with C) can be found [here](#). New stuff is added every day so come by and get a [free subscription](#) to Color Notes -the online magazine for learning to play piano in an easy and fun way using Color Score.
